

About Us

If you are seeking a professional scrap **metal recycling in Kansas City, Langley Recycling Inc.** is the company that you should be working with. We specialize in all things scrap metal, and we have been doing so for 4 generations as a family-owned and operated business. What sets us apart from other companies in the same field is the fact that we take care of our customers, regardless of the size or type of business they run. You can get cash today or just have your scrap metal recycled at flexible time slots without having to worry about getting stuck with it. We have gained a reputation within the Kansas City region for being just that honest, efficient, and dependable. We take pride in the fact that we take care of our customers, whether they are large corporation or private person who just wants to get rid of some old metal. Your satisfaction is our number one priority, and you can count on us to deliver! Call us today.
